Empowering Young Minds Transforming Lives for Future

PROSPECTUS

About Us

The FUTURE SCHOLARS ACADEMY, BADURIA is affiliated to Central Board Of Secondary Education, New Delhi i.e. CBSE. Affiliation number 2430376.

The FUTURE SCHOLARS ACADEMY, BADURIA is a State-of-Art co-educational, English medium school of unique nature in the plethora of similar institution. It has emerged in the changing social fabric of this populous area with a view not only to disseminate education in the formative years of a child but also to harmonize his/her perception, emotion, personality character and interest oriented future through education for a simplified, purified and better balanced society. A child has to acquire the motivation and confidence to swim through the wavy upheavals of life's ocean to achieve a glorious future where posterity may resurrect itself in the panorama of rejuvenation.

It is built on a sprawling and serene green campus, with all necessary facilities at Baduria, 24 PGS(N), West Bengal provides fresh air and ample opportunities for the holistic development of the children who will be accomplished individuals in many ways, happy and confident of leading their lot to a bright future. The Future Scholars Academy believes that every child is unique and an effort is made to cater to his/her individuality.

A school, we believe, should be a place where a child loves to be in and not where he/she dreads to go.

Vision

Our vision is to create tomorrow's leaders who strive for academic excellence by acquiring knowledge through The FUTURE SCHOLARS ACADEMY's Creative experiences in the process to be the lifelong learners with a sense of conviction and commitment. We promise to create responsible GLOBAL citizens who have an understanding of global issues & work for the betterment of the society.

Mission

The mission of the school is to nurture young minds through the creative experience of The Future Scholars Academy team and their unique and stimulating Nurturing approaches that incorporate the best of national and international standard.

Gateway to an Erudite Future

Education, if looked beyond its conventional boundaries, forms the very essence of all our actions. What we do is what we know and have learnt, either through instructions or through observation and assimilation. When we are not making an effort to learn, our mind is always processing new information or trying to analyze the similarities as well as the tiny nuances within the context which makes the topic stand out or seem different.

We believe that when children are engaged in hands-on activities, they become more interested in their education and motivated to learn. Our school is a place to play, create and explore. That's why we rounded up some of our favourite ways to bring the joy back to learning and help children thrive.

The FUTURE SCHOLARS ACADEMY, BADURIA is a place for joyful and stress free learning under the guidance of trained qualified teachers.

- To provide safe and secure physical and technological environment for all in the school.
- To promote moral and ethical values among the members of TFSA family.
- To promote Globally

PARTHA BANERJEE
Director

From the Director's Desk

The most important years of a child's education are the first few formative years wherein the five senses are awakened and prepared for the journey of experiential learning. Early childhood education is also said to have a snowballing effect in increasing the preparedness of a child to study.

At THE FUTURE SCHOLARS ACADEMY we believe in EDUCATION for LIFE, it implies that education is not a one time achievement but it is a lifelong process as natural as breathing. I believe in inculcating and imbibing the best habits, values and ethics in students by unleashing their inner instincts. Education will empower them in their sojourn through life. Catering to the all-round development and growth of an individual is imperative for providing holistic education.

Every generation has something to give each other. Therefore the ambience should be made congenial enough such that the give and take process is a smooth one. It has to be a permeable membrane.

The facilitators at THE FUTURE SCHOLARS ACADEMY create the yearning for knowledge. In the world of today when every individual is keen on establishing rights first, education is the key to unlock such ego. Empowered individuals do not have to fight for their rights. It comes in the same way as respect, which is earned not demanded.

Life is short and beautiful but full of hurdles. Life is a journey. Education imparted should teach the children to overcome these hurdles smoothly and enjoy this beautiful life.

I sincerely feel that our students will uplift the name of THE FUTURE SCHOLARS ACADEMY in the world of education.

DR. APALA CHAKRABORTY
National Awardee
Principal

Foreword by Principal

Education is a lifelong learning process. Learning happens all the time; not only in a pre-designated place called the school. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of Education. I believe that implementing a well-balanced curriculum to ensure that the children who walk into the portals of The Future Scholars Academy will not just love their school but truly be prepared to face life's challenges. As a 21st century organization, the school desires to set an approach to learning that incorporates inquiry, research, analytical thinking and an ethical approach that becomes a lifetime habit. Our distinctive Academic Programme and innovative teaching methodologies encourage students to develop critical-thinking and learn through their doubt clearing sessions to exchange thoughts and ideas. The students are helped to focus on confidence building, while nurturing a strong sense of social and environmental responsibility through academic and co-curricular activities as I believe that, it is not the will to win, but the will to prepare to win that makes the difference. Modern Parenting approach and their involvement in a child's education process plays a vital role in students development. I strongly believe that education is a collaborative effort that involves professional administrators, committed teachers and motivated students. We dedicate ourselves in creating a dynamic education programme empowering the students in a global perspective

We feel very happy to be a part of this establishment. We are serving here true to our potential to transform the young ones into a potential source of knowledge, energy, and strength. A dedicated team of teachers, administrative staff, aware and cooperative parents, and a management imbued with great vision, form a unified team making endeavours to achieve the above.

A student who is taught discipline will learn the power of self control. Freedom, to be truly effective, needs the guidance of discipline. To be successful, we need self-discipline which teaches us to sacrifice individual interest in favour of group interest.

Educating the mind without educating the heart is no education at all. --- Aristotle

A large part of a child's active life is spent in the school. However every child gets his/her emotional stability from the parents. It is the parent's attitude that a child absorbs and the interest and time that parents invest in children, is crucial for their development.

"TO MOTIVATE THE WEAK, TO ADDRESS THE AVERAGE AND CHALLENGE THE GIFTED" is the teaching vision of our school.

Why choose The Future Scholars Academy?

It is the UNIQUE PEDAGOGY SYSTEM that makes THE FUTURE SCHOLARS ACADEMY different from other schools. The Unique Pedagogy System is an innovative system of education to integrate the best ideas in education taken from all good practices in India and around the world. Emphasis is laid on learning from the environment combining spiritual philosophies with different subjects in curriculum. To achieve the goal our student community is involved in peer tutoring to reach out to fellow students who may be less privileged than them. Our teachers are provided opportunities for researching pedagogic systems and for continuous training and learning. In addition to excellent teaching and learning facilities every student of our school is nurtured and empowered to blossom in their own special way.

Our "Open-Lab" concept is one unique method of teaching and learning of science for the students of pre-primary level to secondary level. Students enjoy the open lab as per their convenience. They do science experiment, make innovative science and mathematical models using natural and non-toxic materials. Students learn on their own and this method of learning increases the inquisitiveness in child.

The Future Scholars Academy Highlights

- Personal Care & Attention
- Guided Study
- In-class Action
- Continuous Feedback

The Future Scholars Academy Values

- Building Responsibility & Cohesiveness
- Building Co-operation & Co-existence
- Educating to Contribute
- Professional Guidance

- Dance
- Guitar
- Drums
- Key Board
- Quiz
- Debate
- Elocution
- Football
- Cricket
- Volley ball
- Basketball
- Table tennis
- Badminton
- Martial arts
- Yoga
- Regular counseling session under the guidance of renowned psychologist.
- Class 3 onwards students are prepared for different national and international competitive exams.
- They are prepared for INSPIRE scholarship offered by Govt.of India.

Academic Curriculum

The school has the distinction of providing integrated scheme of education in keeping with the New Policy of education. The school is following the curriculum prescribed by the CBSE and is based on the guidelines established by the National Council of Education Research and Training (NCERT), New Delhi. As per CBSE guidelines, the school is following the grading system as introduced by CBSE in all the classes. CCE scheme is followed which not only includes scholastic areas but also co-scholastic areas of life skills, attitude and values, sports and games as well as co-curricular activities. The CCE scheme aims at addressing this in a holistic manner.

CBSE EDGE

1

CBSE is a national and international educational Board which is followed by over 25,000 schools not only in India but also in the Middle East, Far East, Europe and USA.

2

CBSE syllabus is more student-oriented and helps the students to better prepare themselves for the competitive examinations at the all-India level.

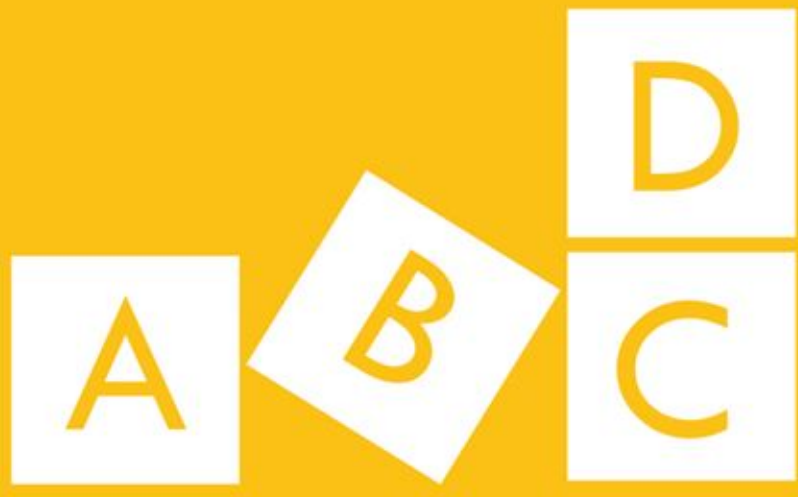

3

At the national level, students of CBSE have an advantage in competitive entrance examinations such as JEE, AIEE, NEET and others. The CBSE curriculum is quite similar to the one followed by the boards conducting the admission test.

4

It is the only board to be facilitated by NCERT (National Council for Education & Research Technology) under the department of education, Govt. of India.

**PRIMARY SECTIONS
(I - V)**

**MIDDLE SCHOOL
(VI - VIII)**

**SENIOR SCHOOL
(IX - X)**

Special Emphasis on Co-curricular Activities

Our School aims at developing confident, all-rounder students with capabilities and the spirit to reach for the sky. The curriculum provides a rich variety of co-curricular activities, which we consider not extra but an essential part of a child's education.

Excellence in Sports

At THE FUTURE SCHOLARS ACADEMY, we believe that Sports play an important role in the life of a child. The qualities of leadership, teamwork and sporting spirit are taught on the sports field. Therefore, every child is encouraged to take up a sport, being given a vast choice including Cricket, Football, Volleyball, Badminton, Table Tennis, Chess and much more. Our sporting facilities are for both indoor and outdoor sports and include 360° running track, cricket pitch, cricket nets, football pitch, basketball, badminton and volley ball courts. In addition to Physical Education teachers, the school also provides professional coaches. The sports teachers do the 'talent spotting' to encourage children to take up the sport that most suits their interests and skills.

Admission

Registration for Admission

- Name of the candidate seeking admission in the school is registered in the school office.
- The form duly filled in, should be returned to the school office along with one stamp-size photograph & other documents before the last date, as decided by the management.
- Applicants found suitable for admission, will be intimated for the completion of admission formalities after depositing the required fees along with the necessary and relevant documents.
- The form issued by the school is non-transferable & should be used in its original form.

CLASS	Appropriate Age in years (as on 1st April)
Nursery	3

UKG	5
Class 1	6
Class 2	7
Class 3	8
Class 4	9
Class 5	10
Class 6	11
Class 7	12
Class 8	13
Class 9	14

Training & Upgradation

We closely monitor the work of our teachers and review their performance regularly through teacher appraisals - to assess their knowledge and skills, their attitude and behaviour in the classroom as well as in the community. We seek regular 360° feedback from our students and parents about our teachers. All staff members of the school take part in our continuous training upgradation sessions and adequate resources are allocated and develop their skills.

Transport Service

THE FUTURE SCHOLARS ACADEMY is committed to reducing its carbon footprint and encourages its students to use the outsourced bus service on offer. Inside the school buses the students are always accompanied by an attendant in the bus. The outsourced school buses and the transport staff follow all rules and guidelines for ensuring safety for the children, which is of paramount importance to us.

The students embark and disembark under the vigilance of transport manager and attendants. All buses are equipped with first-aid kits and the drivers and attendants are trained to use them in case of an emergency. Buses arrive at the designated bus stops in time given to the parents. They are requested to be present at the bus stop ten minutes before the arrival time. Buses normally depart ten minutes after the school gets over. Parents are requested to be present at the scheduled bus stops to pick up the children at least ten minutes before the bus arrival time.

As part of our future endeavours we are committed to guiding our students down the exemplary trajectory. The future generations are in our hands and we eagerly await the challenge of training them to not only reason in terms of traditional disciplines but also in developing the ability to use this training in creative thinking and problem solving that in most instances tends to merge understanding from a number of different perspectives.
